Coral Sunrise Lily

Coral Sunrise Lily *Lilium 'Coral Sunrise'*

Height: 3 feet

Spread: 18 inches

Spacing: 14 inches

Sunlight:

Hardiness Zone: 2a

Group/Class: Asiatic Hybrid

Ornamental Features

Coral Sunrise Lily features bold coral-pink trumpet-shaped flowers with hot pink overtones and gold centers at the ends of the stems in early summer. The flowers are excellent for cutting. Its narrow leaves remain green in colour throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Coral Sunrise Lily is an herbaceous perennial with a rigidly upright and towering form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This plant will require occasional maintenance and upkeep, and should be cut back in late fall in preparation for winter. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects
- Disease

Coral Sunrise Lily is recommended for the following landscape applications;

- Mass Planting
- General Garden Use

Planting & Growing

Coral Sunrise Lily will grow to be about 30 inches tall at maturity, with a spread of 18 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 14 inches apart. It tends to be leggy, with a typical clearance of 1 foot from the ground, and should be underplanted with lower-growing perennials. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 10 years.

Coral Sunrise Lily

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by multiplication of the underground bulbs; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.
